

COOPERS BAY.
OUTDOORS

WOOD CARE INSTRUCTIONS

This item is crafted from a natural hardwood. To ensure that you get the most from it please follow these recommendations for proper care. Prior to initial use, hand wash with warm water and wipe dry. After each use and subsequent cleaning, apply a very light coat of food-grade oil to keep the wood from drying out and potentially cracking. We recommend mineral oil or beeswax. Dishwashers and microwave ovens are not recommended. Also try to avoid extreme temperatures: hot liquids are fine but try to let it cool off a little after boiling before you pour into the cup.
